What's up world? This is SpartanPrime101, bringing to you a new style of Halo fanfiction literature that will " hopefully " thrill you just as much as it has to me: a Halo fanfiction story based from the popular History Channel series Dogfights. I might post the first chapter for this story before the first part for Halo: Gracemaria. And so, without further adieu, here is Dogfights: Gracemaria.

August, 2551: The Covenant has launched a full scale invasion on the outer United Nation's Space Command colony, Gracemaria. After nearly three decades of defeat after defeat, the UNSC High Command officials believe that the fate of the colony is all but sealed. But the defenders of Gracemaria are about to prove their superiors wrong: for nearly three months, the brave men and women of the 303rd Sparta 'Hoplite' Battle Corps stand their ground, and pursue the unthinkable: the first total victory against the Covenant onslaught. Now, through state of the art computer animation, you're in the cockpit as Gracemarian pilots flying HSB-79 Thunderbirds, YSS-1000 Sabres and GCF-105 Avro Arrows rise to defend their home planet, in

some of the most heart pounding aerial battles of the Human-Covenant War. Experience the Battle. Dissect the Tactics. The Covenant invasion of Gracemaria: Next on Dogfights.
